PROFESSIONAL SUMMARY

MIS graduate from KFUPM with digital transformation internship experience. Builds React/TypeScript business applications, React Native/Expo prototypes and Python financial-analytics tools, applying requirements analysis, relational data modeling and workflow automation.

EDUCATION

B.Sc. in Management Information Systems (MIS) | May 2025

King Fahd University of Petroleum and Minerals (KFUPM) | Dhahran, Saudi Arabia

PROFESSIONAL EXPERIENCE

Digital Transformation Intern

Al Manaseeb Contracting Company (AMC) | Saudi Arabia | June 2024 – January 2025

- Developed **AMC Project Hub** for Al Manaseeb Contracting Company using React/TypeScript and Supabase/PostgreSQL, spanning seven operational modules.
- Digitized procurement/HR workflows and implemented purchase-order line items, project tracking, QA checklists and gate-pass records. [Live demo](#)
- Analyzed industrial-project requirements and prepared quotations, delivery schedules and work breakdown structures for Furnace Camera Replacement and SAPIN proposals.
- Supported risk assessments and HSE documentation; used AI-assisted tools for software prototyping.

SELECTED PROJECTS

Intelligent Stock Rating System — Financial Analytics & ML

- Built Python stock screening across five timeframes, integrating SEC EDGAR/XBRL data, DCF/WACC valuation, ROIC and risk analytics.
- Implemented Ridge/gradient-boosting ensembles with XGBoost/LightGBM support; applied embargoed walk-forward validation and fold-specific preprocessing.
- Developed resumable acquisition for a 7,158-ticker universe and a 4,000-row research dataset covering 200 companies and 20 evaluation dates.

Sallehni — Bilingual Vehicle Service App | [Live demo](#)

- Developed an Arabic-first React Native/Expo prototype with five screens for vehicle health, simulated diagnostics, service booking, repair tracking and history.
- Added Arabic/English interface controls, RTL-aware layouts and Hijri/Gregorian calendar toggles using React Context and reusable TypeScript components.

Additional Projects

- **Athar:** Python/Streamlit archiving with Ethereum verification and torrent distribution.
- **File Share & Chat:** Flask/Socket.IO app for live chat, file transfer and history synchronization.
- **Internship Management System:** Faculty-student matching and internship coordination platform.
- **KFUPMSOC Tournament System:** SQL/Java/JavaFX tournament database and graphical interface.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, TypeScript, Java, C#

Data & ML: pandas, NumPy, scikit-learn, XGBoost, LightGBM, feature engineering, database design

Web & Mobile: React, React Native, Expo, Tailwind CSS, Supabase, Flask, Streamlit, HTML/CSS

Analysis & Tools: Requirements analysis, workflow automation, Git/GitHub, Selenium, PyAutoGUI

LANGUAGES

Arabic: Native | English: Professional
